

Erasmus Plus Project : Smarter...Greener...Safer...

*Istituto Comprensivo Madonna
della Camera
di Monteparano*

Vincenti Company: visiting at Waste Disposal they produce renewable energy from the separate collection of waste. In addition, the company produces solar panels and wind turbines. The Company is located in Cutrofiano – Lecce - Italy

Visiting a Natural and The Botanical Park in Taranto ù
Visiting and tour in the beautiful rivers; Galeso, Chidro, Patemisco, Tara

Another great topic to learn about how to become "Smarter...Greener...and Safer.."
Nursery School of Istituto Comprensivo "Madonna della Camera " - Monteparano.
Thanks to our singer songwriter :
Mr. Little Piere who enjoyed our kids with his beautiful music and songs about water and nature.

Smarter... Greener... Safer... face to face students and experts . "The world of energies" - "Save the Earth"...together to promote and increase the skills and practical knowledge for a sustainable, green and smart future.

Thanks to [Maria Antonietta Ciccone](#) and [Nunzia Rizzo](#) “ Play Energy, Enel”.

Play Energy - La Fabbrica is an innovative company, one that is international yet linked to the local territory, and attentive to the environment and to sustainable development. **Enel** is an Italian [multinational](#) manufacturer and distributor of electricity and gas.

Primary school of Istituto Comprensivo "Madonna della Camera" - Monteparano

Visiting visit to the **Farm"Del Duca"** in Crispiano – Taranto

The Farm has been rewarded because it meets three categories: Design for sustainability, Start up of the green economy, Agriculture and agrifood. The award to the F.Ili Cassese Agricultural Society was motivated by the jury "For the cultivation of organic olive oil from 40,000 olive trees, for the use of savings and water recovery systems, for the production and use of renewable sources of electricity and thermal supplied by a biogas plant.
